WALLCOVERINGS

Signature Collection Catalogue

Every remarkable interior begins with a vision, an instinctive understanding that the spaces we inhabit shape the way we live, work and connect. At Signature Wallcoverings, we believe walls are opportunities to tell a story unique to each environment.

The Signature Collection is a *made-to-inspire* curated selection of botanicals, landscapes, cityscapes, abstract compositions, contemporary designs, refined textures and imaginative collections for children's spaces that add depth, character and enduring elegance.

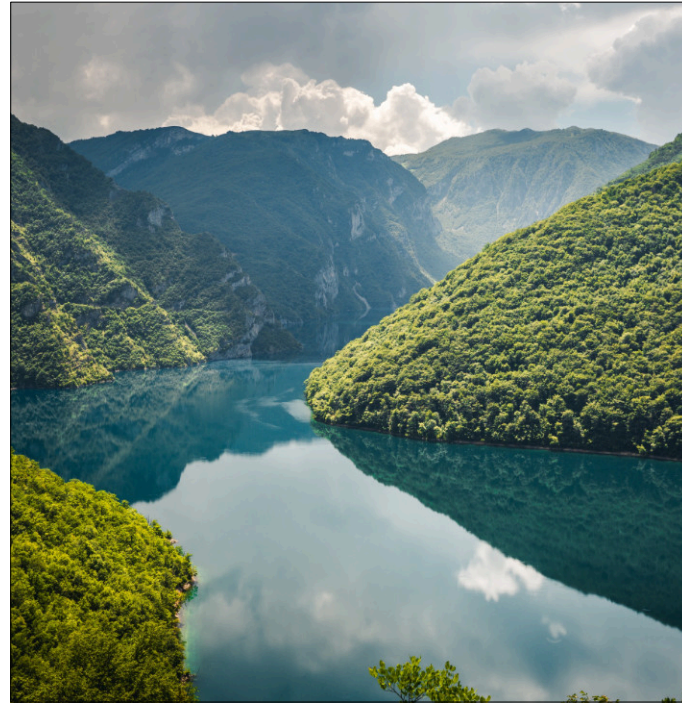

Printed as seamless custom murals and tailored precisely to the dimensions of every project, each installation is produced with exceptional attention to detail for clarity and colour. The result is a continuous composition that feels considered and effortlessly integrated within its surroundings.

Whether creating a private residence, hospitality destination or commercial interior, we invite you to explore this collection to create spaces that leave a lasting impression.

Nature & Wildlife | 42 - 51

Textures & Stone | 64 - 75

Kids & Nursery Designs | 82 - 105

Botanicals

Nature possesses a quiet ability to soften and restore balance within a space. Graceful foliage, delicate florals and lush organic compositions bring a sense of calm, vitality and refinement indoors.

Capture the intricate beauty of the natural world while maintaining a distinctly contemporary elegance with understated leafy silhouettes to richly layered tropical scenes, these designs create interiors that feel both timeless and deeply restorative.

Wall moulding is available as an additional or separate finish, priced per square metre. Murals are custom printed and scaled to the dimensions of your space, ensuring a seamless finish.

Landscapes & Scenic

Sweeping horizons, tranquil coastlines, dramatic mountains and mist-filled forests invite the outside world into everyday living, creating a remarkable sense of depth and openness.

Whether chosen to inspire quiet reflection or create a striking focal point, these compositions bring an enduring sense of peace and calming atmosphere to every interior.

Wall moulding is available as an additional or separate finish, priced per square metre. Murals are custom printed and scaled to the dimensions of your space, ensuring a seamless finish.

Abstract

& Modern Art

Abstract design invites interpretation, allowing colour, texture and form to shape the emotional character of a room be it through fluid compositions, layered brushstrokes, sculptural geometry and painterly movement. The result is a space that feels expressive and contemporary.

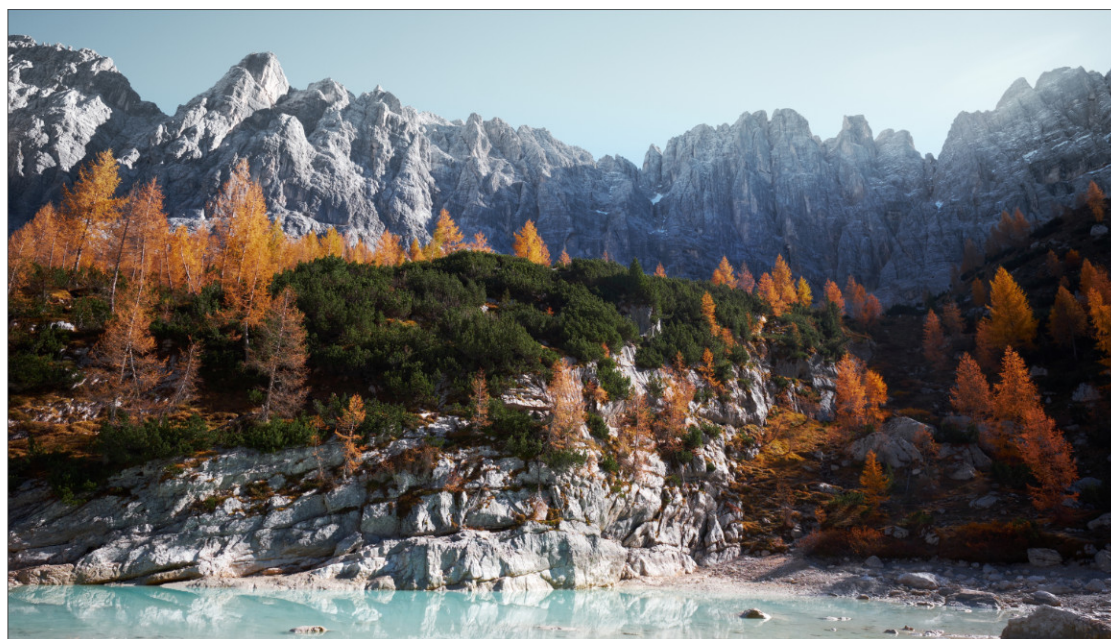

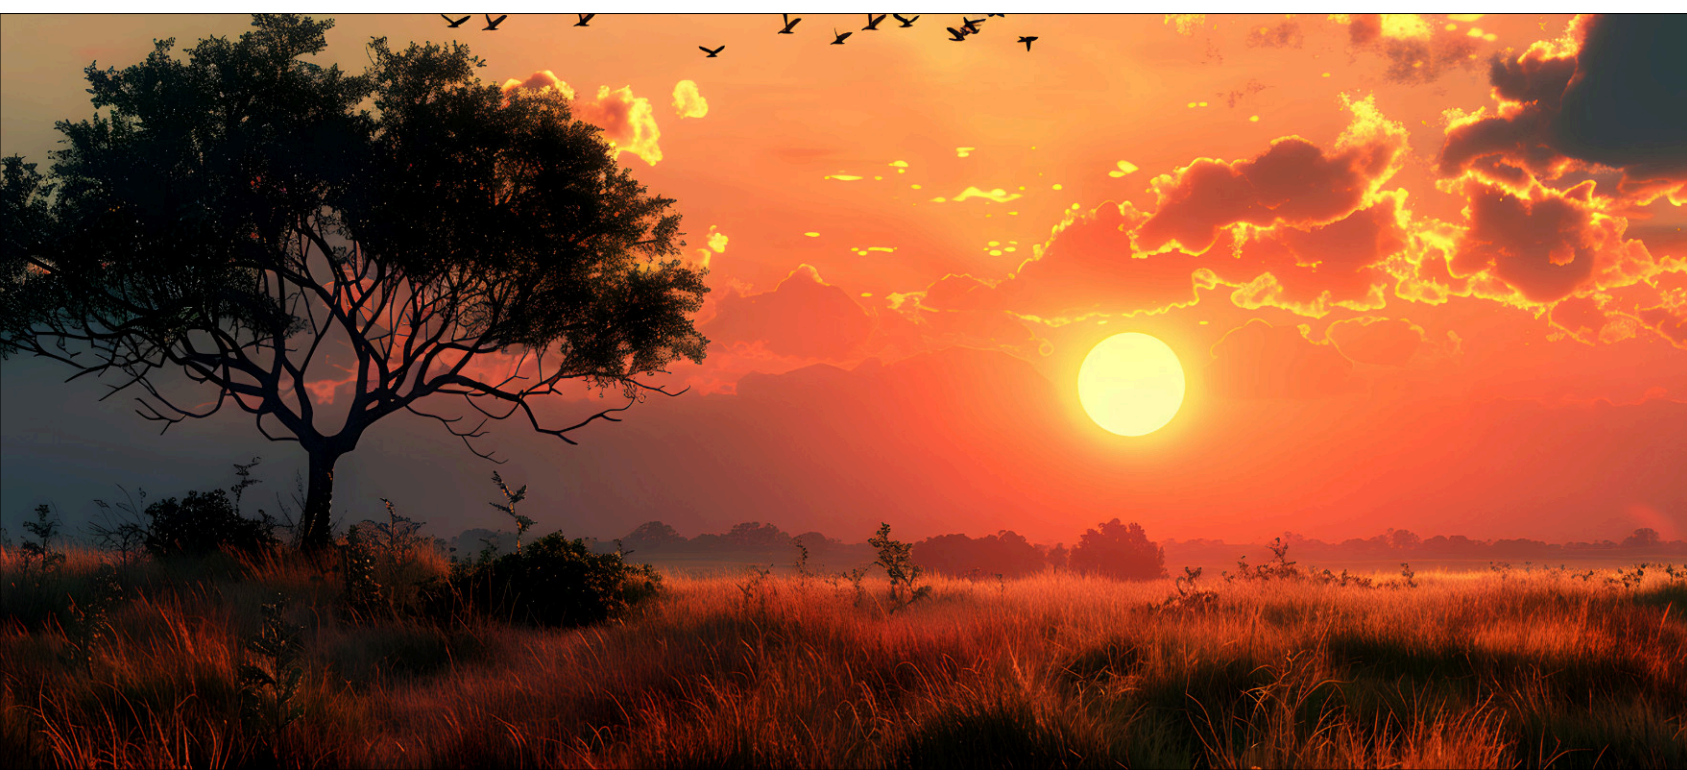

Nature & Wildlife

From dense botanical scenes to expansive wilderness, each design offers a different way to connect an interior with the world beyond its walls. Explore landscapes, foliage, animals and organic forms through compositions that invite curiosity while creating a profound sense of place.

Cityscapes & Architecture

Architecture tells the story of a place. Draw on that language through striking skylines, historic facades, urban perspectives and celebrated architectural forms.

There is something captivating about seeing familiar structures from a new perspective. These designs introduce scale, rhythm and movement to interiors, creating walls that feel connected to the energy and character of the cities they portray.

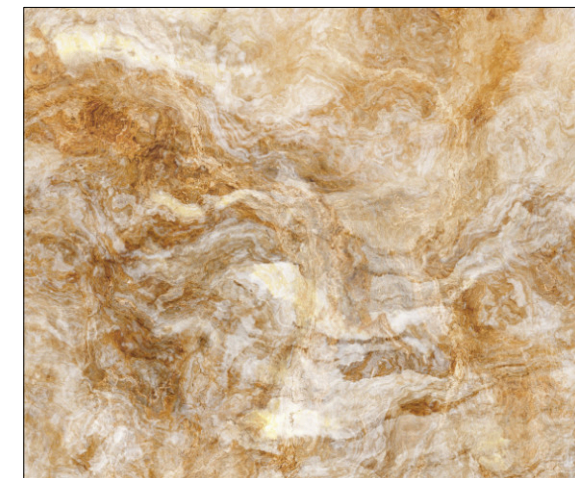

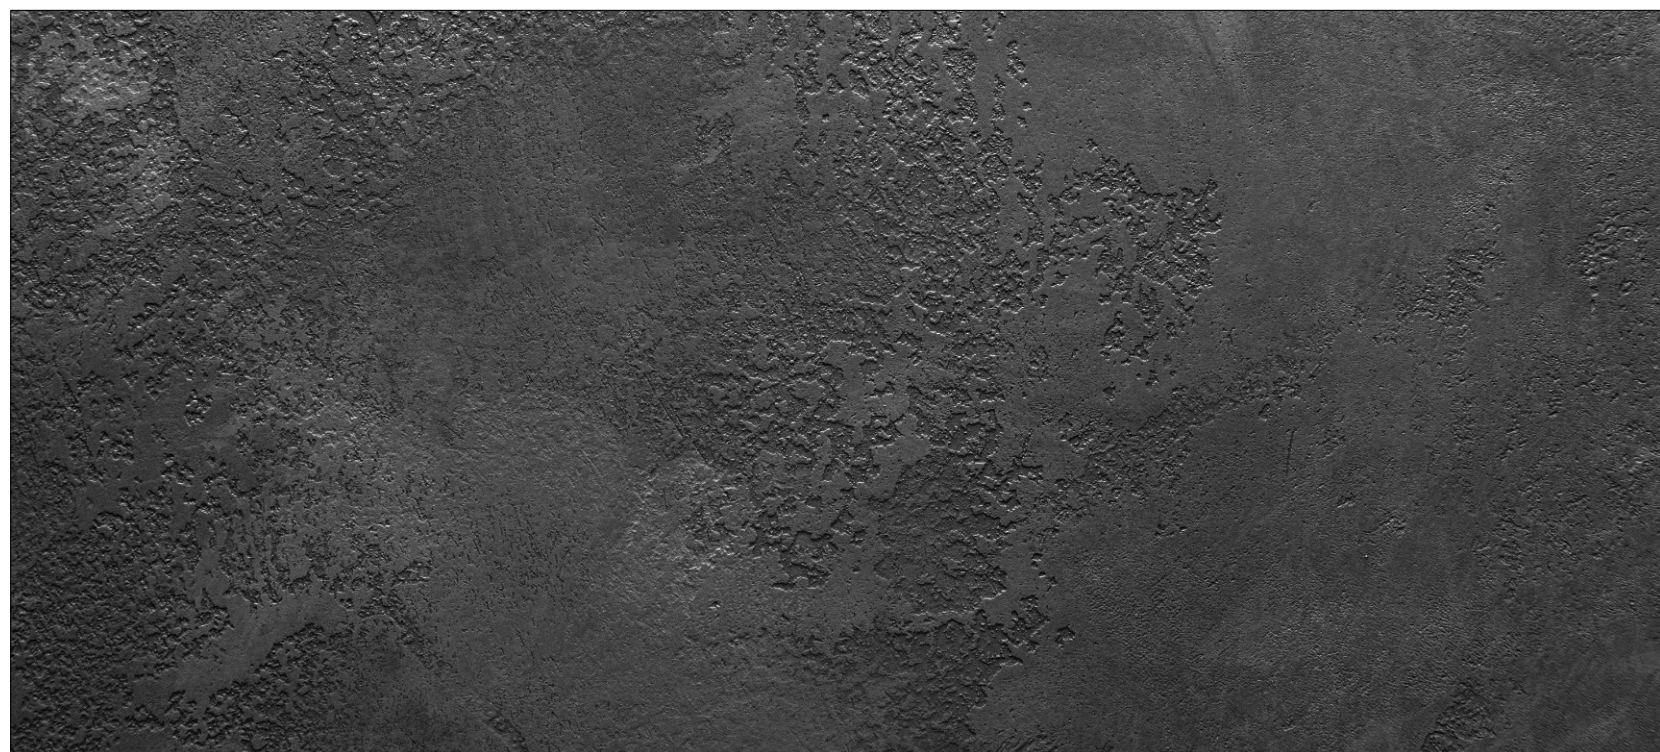

Textures & Stones

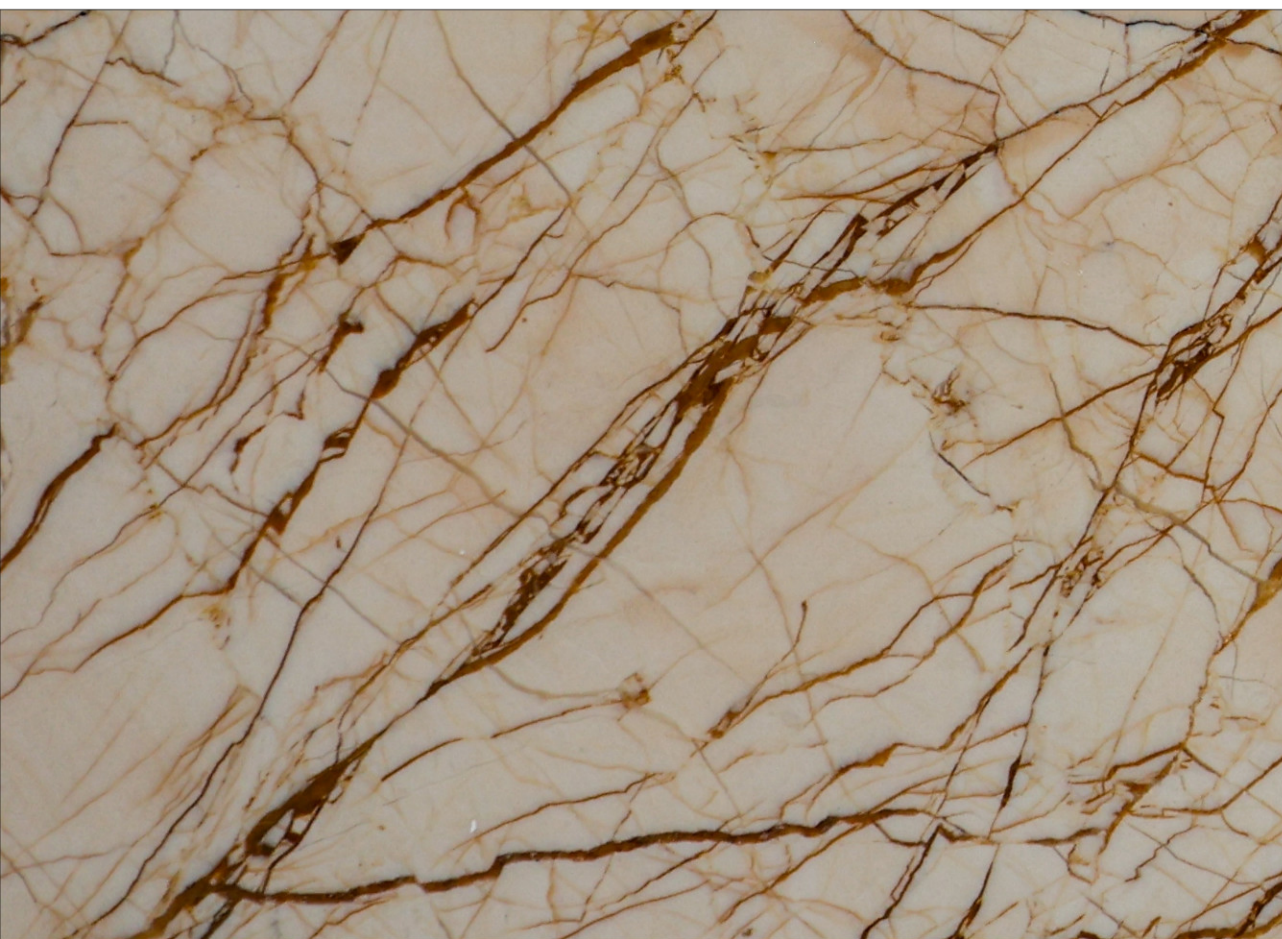

Some of the most compelling interiors are defined by movement and textures. Explore the visual character of natural stone, mineral surfaces, plaster, concrete and other tactile finishes, translated into beautifully detailed wallcoverings.

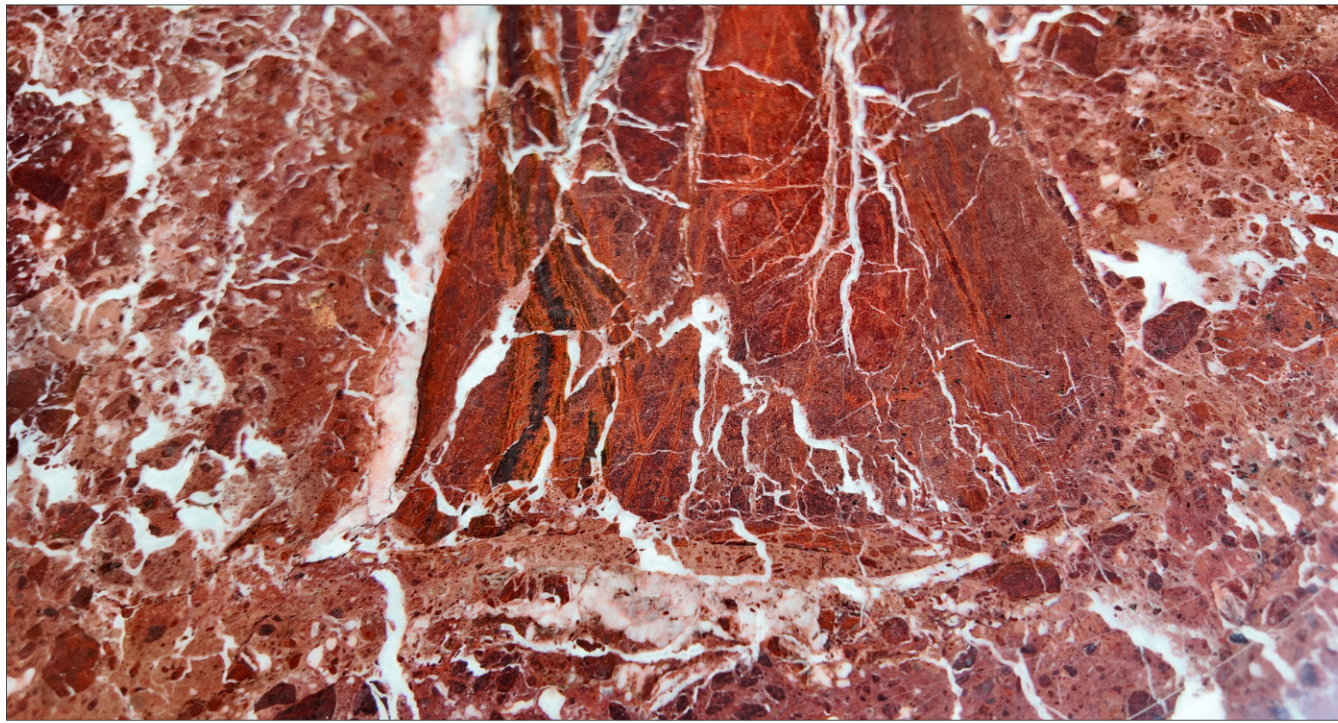

From the understated warmth of limestone to the dramatic movement of marble, these designs offer the visual richness of natural materials with the versatility of a custom mural bringing depth, sophistication and a considered materiality to spaces.

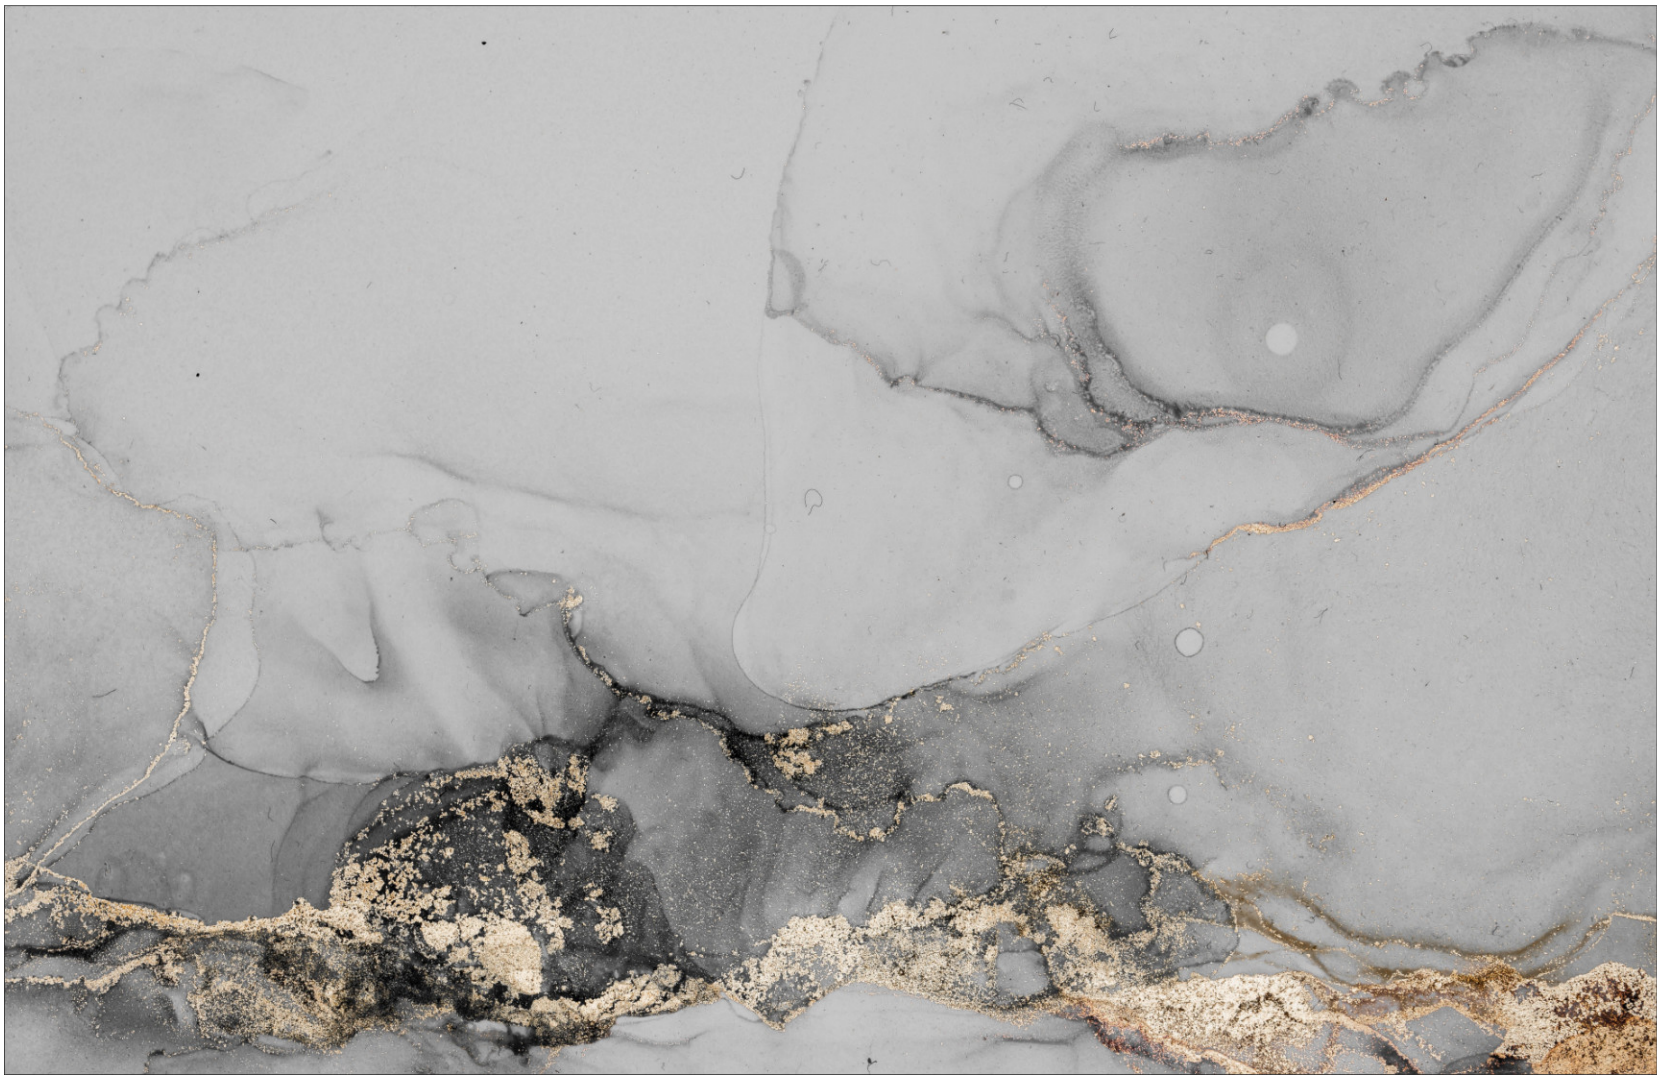

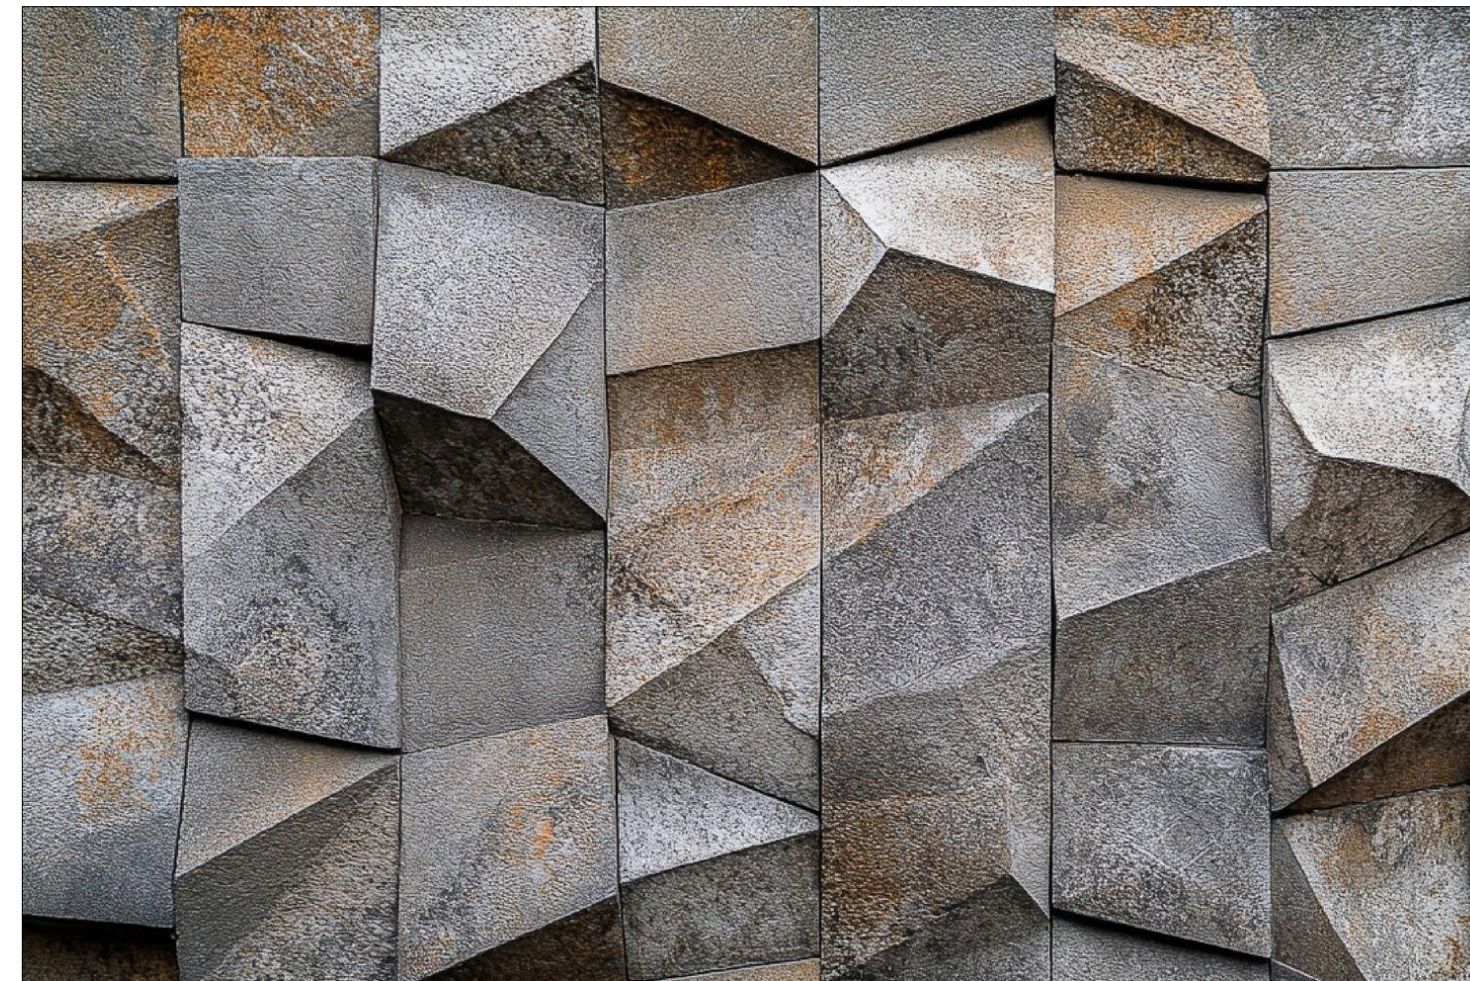

Contemporary & Modern

For interiors shaped by confident lines, considered composition and a contemporary point of view, this is a more expressive approach to the modern wall.

Contemporary & Modern designs bring together graphic forms, artistic compositions, geometric movement and refined patterns designed to complement the architecture around them. Some designs make a quiet statement through restraint; others introduce rhythm, contrast and visual energy.

Each mural is produced to the dimensions of the individual project, allowing scale and composition to be carefully considered rather than simply applied. Seamless printing creates a continuous visual language across the wall, resulting in spaces that feel deliberate, sophisticated and distinctly their own.

Kids & Nursery

A child's room is a place where imagination takes shape, curiosity flourishes and every day brings a new adventure. Thoughtfully chosen wallcoverings can transform these spaces into inspiring environments that encourage creativity while remaining beautifully considered from a design perspective.

From playful illustrations and adventurous worlds to gentle storytelling scenes, each mural is custom printed and precisely scaled to the space, creating an immersive setting that feels entirely its own. Designed to delight in the present while leaving room for little personalities to grow, these walls become part of the stories, discoveries and memories that make childhood so wonderfully unique.
